

7.107-2 Consolidation.

(a) Consolidation may provide substantial benefits to the Government. However, because of the potential impact on small business participation, before conducting an acquisition that is a consolidation of requirements with an estimated total dollar value exceeding \$2 million, the senior procurement executive or chief acquisition officer shall make a written determination that the consolidation is necessary and justified in accordance with [15 U.S.C. 657q](#), after ensuring that-

(1) Market research has been conducted;

(2) Any alternative contracting approaches that would involve a lesser degree of consolidation have been identified;

(3) The determination is coordinated with the agency's Office of Small Disadvantaged Business Utilization or the Office of Small Business Programs;

(4) Any negative impact by the acquisition strategy on contracting with small business concerns has been identified; and

(5) Steps are taken to include small business concerns in the acquisition strategy.

(b) The senior procurement executive or chief acquisition officer may determine that the consolidation is necessary and justified if the benefits of the acquisition would substantially exceed the benefits that would be derived from each of the alternative contracting approaches identified under paragraph (a)(2) of this subsection, including benefits that are quantifiable in dollar amounts as well as any other specifically identified benefits.

(c) Such benefits may include cost savings or price reduction and, regardless of whether quantifiable in dollar amounts-

(1) Quality improvements that will save time or improve or enhance performance or efficiency;

(2) Reduction in acquisition cycle times;

(3) Better terms and conditions; or

(4) Any other benefit.

(d) Benefits.

(1) Benefits that are quantifiable in dollar amounts are substantial if individually, in combination, or in the aggregate the anticipated financial benefits are equivalent to-

(i) Ten percent of the estimated contract or order value (including options) if the value is \$94 million or less; or

(ii) Five percent of the estimated contract or order value (including options) or \$9.4 million, whichever is greater, if the value exceeds \$94 million.

(2) Benefits that are not quantifiable in dollar amounts shall be specifically identified and otherwise quantified to the extent feasible.

(3) Reduction of administrative or personnel costs alone is not sufficient justification for consolidation unless the cost savings are expected to be at least 10 percent of the estimated contract or order value (including options) of the consolidated requirements, as determined by the senior

procurement executive or chief acquisition officer ([15 U.S.C. 657q\(c\)\(2\)\(B\)](#)).

(e)

(1) Notwithstanding paragraphs (a) through (d) of this subsection, the approving authority identified in paragraph (e)(2) of this subsection may determine that consolidation is necessary and justified when-

(i) The expected benefits do not meet the thresholds for a substantial benefit at paragraph (d)(1) of this subsection but are critical to the agency's mission success; and

(ii) The procurement strategy provides for maximum practicable participation by small business.

(2) The approving authority is-

(i) For the Department of Defense, the senior procurement executive; or

(ii) For the civilian agencies, the Deputy Secretary or equivalent.

(f) If a determination is made that consolidation is necessary and justified, the contracting officer shall include it in the acquisition strategy documentation and provide it to the Small Business Administration (SBA) upon request.
